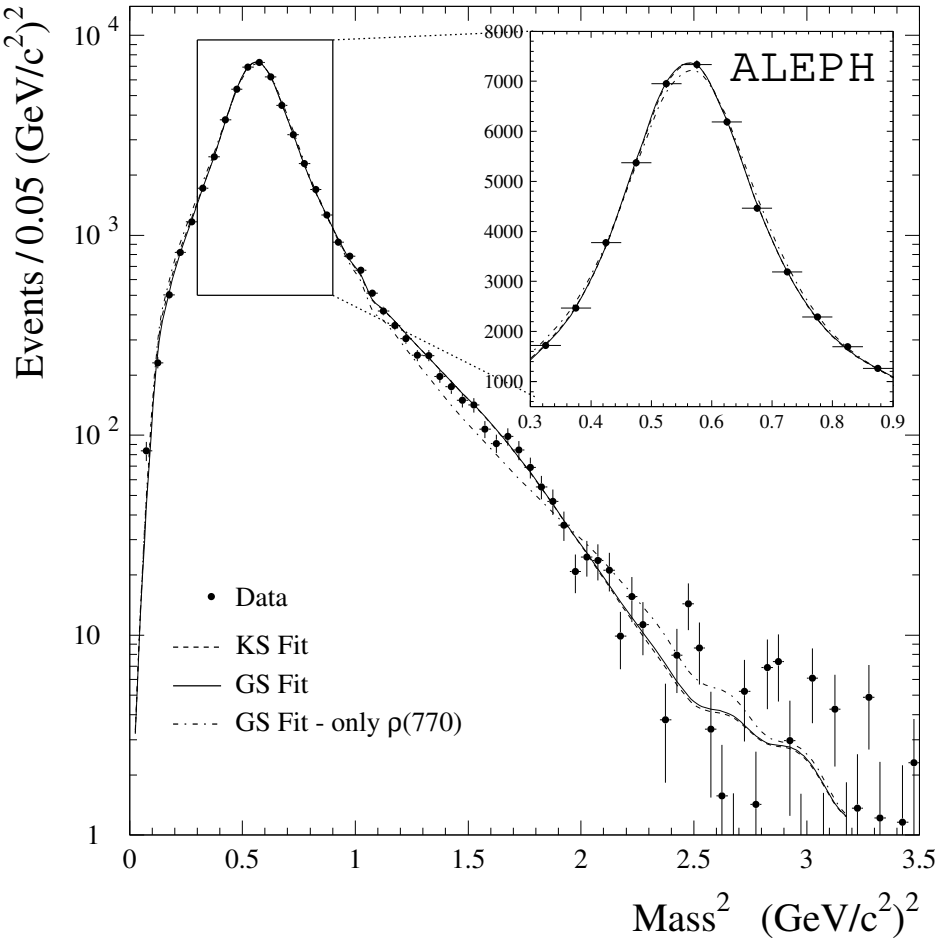
Comparison of 2π Data with Models

Models: Kühn,Santamaria(KS) vs Gounaris,Sakurai(GS)

- Include $\rho^{\pm}(770,1450,1700)$ & $\rho-\omega$ Interfer.
- Different Treatments of Breit-Wigner Res's
- Fit for various ρ-param's & fractions

ALEPH $\tau^{\pm}\to\pi^{\pm}\pi^{0}\nu_{\tau}$



Agreement Quite Good
